Mr. Dupree,

My name is Tyler Lofall I sent you a letter this summer and received a response and since then I have tried twice to get in contact unsuccessfully.

I just realized while searching my responses from federal court my second response was never responded either . If this is your contact please let me know .

Thanks Tyler

Good morning Mr. Lofall,

This is my correct email address. It looks like the email address used in the email below was missing the “state” in my email. The request was closed on August 31, 2024, because OJD didn’t receive a response. That said, I’d be happy to work with you. Please let me know what you would like to do.

All the best,

Sam

Subject: Clarification of "Work With Me" and Proposal for Collaborative Resolution

Dear Mr. Dupree,

Thank you for your response of January 10th. I appreciate your willingness to "work with me," and I want to ensure we are both on the same page regarding what that entails. I also want to acknowledge that my August communication contained a typo in your email address. The letter itself was from a

photograph my aunt had taken and sent to me as that address is her home. I use it for court documents because it's consistent and not too far away. However, due to the fraud surrounding my Assignment of Benefits (AOB) claim, which was amplified a hundredfold by my false arrest, my living situation has been unstable ever since.

I will keep this without an attachment in case your server blocks them (as you said nothing about the November follow up, it may have just slipped by you, or your server could have blocked it... it's unclear.)

Background of My Situation

To provide context, I filed over 150 documents in total trying to handle the AOB claim, including attempts to revive, revisit, and appeal the loss of that claim, all while being denied my day in court and ultimately having it dismissed based on laws that I was exempt from, all while I was falsely arrested. My property was abandoned in four locations while incarcerated. The last of my remaining property was left in open tubs on the side of the road due to West Linn officers, namely Catlin Blyth and Dana Gunnarson, who claimed they would put my property into my truck and lock it up, assuring me it would be safe. They did not. Instead, they immediately sealed this information within the Department of Human Services (DHS) records, intertwining it with Macy Galla's and her children's fathers' divorce records to hide it from me. I quickly went pro se when my court-appointed counsel told me she wouldn't fight my case and was basically there to get me to take a deal.

Despite this, a reckless Macy Galla was allowed to destroy my property, run amok, and bash out windows to my residence, causing a scene. The police and DA then proceeded to lie, hide my records and property, and alter the story. The arresting officer gave an original victim survey where Macy "did not screen in" as a victim of domestic violence because I was never violent. As

things progressed, Macy reached a breaking point and refused to lie anymore about what I had done. The police had slow-played the situation and manufactured a scenario that did not exist. Macy, fueled by jealousy and a substance-abuse bender, thought she had the power to remove me instantly. Her way of "getting back" at me was to take my work files and car keys and create a scene, blaming me for her choices that I had no knowledge of. The police had no legal basis to remove me from the house. I wanted my keys and files. I have text messages between Macy and me that clearly show the entire three days she was a mess, and I was asking for my keys and work files. With broken-out windows, soaking wet, I knocked on the door upstairs. They turned this into me harassing her after she broke the windows, tipped the fridge over, attacked me with a hose and hammer, took a garden hose and sprayed inside where the windows used to be, and poured 30lbs of flour on my property each day for three days, took five gallons of gasoline, and threatened to burn down the house and my property. The police left the gasoline with her. Police reports show me calling the cops, telling them she broke out the windows with a hammer. They came, did nothing, and she did it again. It turns out they were coaching her on how to get me to break the law. I wouldn't put my hands on her, so they just kept supervising the destruction of my property.

1. *Macy had a house, and West Linn manufactured a story that never existed based on someone else's mental health issues, who thought I was in the bushes. Some of my stuff was stored there, and I just stopped answering her calls when she was drunk. She went off on a tangent. That story was cleared up and told to the judge. (She will be my witness at trial and explain the truth). I wasn't there and was sorry and cried at a phone court I attended. This was all disregarded.*

2. *Now homeless, with my property scattered all over Washington and the court in Oregon, I got a firewood permit to make some side money. I cut firewood on the wrong side of the road because I couldn't read the map, which had no roads on it. It turns out firewood was for personal use only. I wouldn't take their deal, so they charge-stacked me days before*

trial. I wrote them a letter, telling them I couldn't risk them keeping me and losing hundreds of thousands of dollars.

Consequently, from those two things, WLPD gets to lie and state that I'm a convicted multi-time violent offender and keep me in jail for months at a time?

Clackamas County follows the laws and does their duty and doesn't let someone steal over $100,000 from me? Do you think I have my stuff pissing off people all over the state, or do you think I'm cutting firewood on the side of the road for "lunch money"? I think not.

I was in that position because of Clackamas County and their systemic failures. Their systemic failures got way worse when I was told by West Linn PD to leave my property (why I need body camera footage) and go, but I didn't have my keys and work files. Arresting me was easier than dealing with a screaming, kicking West Linn Black woman who was having a hissy fit because I wouldn't leave her house without my property. So, arresting me and making me look violent and a repeated offender was an easier route to take. Bottom line: I didn't do anything. They failed to protect me, and then they tried everything in their power to get me to admit to a crime I didn't commit. They lost their star witness, who turned out to be hostile and wouldn't play their game.

It bit them in the ass when it turned out that I didn't have to have an attorney represent me. It turns out that I had a 4.0 from elementary school through college. It really bit them in the ass when it turned out that I could bypass their jail locks on their law library computers and know it was a guard, Baker, who deleted 62 of my documents right after trial (I have these kite responses). When I had been observant the entire time and was going to follow through with it, they wouldn't have stated directly in kite responses that they were not going to let me in the law library for civil claims when they were jealous that my claim was for about six years of their average salary. They wanted to ego blast me and make me lose it. They denied me the law library left and right, and they even went in and clicked me as allowed law library and only had one clock-in time and ignored me in spurts of 9 days, 7 days, 6 days, all while I

was pro se and had a civil trial. They let me out for me to get hyperthermia, and before I tried to get my clothes, Macy contacted my friend, who came and told me. That's the only reason I even bothered going to see about clothes. But the same arresting officer had leveraged a feud with a 14-year-old girl and her mother, giving the 14-year-old power over the mother and putting me, not wanting to have hyperthermia, in the middle of it. However, when I showed up, all my property was stolen, ransacked, soaking in water, and wrecked. All my stuff the police never protected; they left it on the side of the road. Hours later, I was in the hospital with hyperthermia. After I was so soaked and hailed on and wet, I tried to make a fire, but I was too cold. Police showed up to give me a no-contact violation, which they gave me a bail amount on. Macy called my mom and bailed me out because she felt responsible. My cousin came and bailed me out (I have these records). Then Clackamas County revoked it for the same reason I had gotten my case revoked. They then had no claims on me still, but forced me into a cell with someone with COVID. Then forced someone else in a cell with me so I couldn't give them COVID. It was obvious we all had some sort of vendetta on us. Me filing all my claims and notifying the DA I was suing them for false arrest, the next guy escaped the justice center, and the other one assaulted an officer. It was the police's way to get back at us. As I got COVID, instead of separating us, they timed it out, leaving us celled up to ensure we gave it to the next person in an endless cycle so they could get paid extra or whatever. The notes were on my charts when I tested positive and when I separated cells. I contracted it on the 28th. On the 29th, they moved me cells, and on the 30th, I refused to get in the cell with someone else and walked down and went into an empty cell. They didn't feel like fighting with me anymore because, at that point, I had already threatened them with additional grievances, which I filed, I want to say, June 2nd. When I finally was allowed a tablet, that grievance was answered July 5th. They said I was just unhappy. Then, on June 8th, I was set for civil trial, and due to the jail staff thinking it was a game, they dressed me, got me on a bus, then said, "Ohhhh, we messed up all your tests for COVID; you're not going to trial." After everything, no one failed; they were just messing with me. Then, on June

10th, Macy had gotten tired of them trying to leverage her custody of her children over my freedom and tried to make her lie to prosecute me, making it look like it was all her lies when the police had my testimony, but they wrote it off as "I'm just being argumentative" when my argumentative was they had no right to take me to jail. I've broken no laws. They then used the Washington crazy chick as the first offense that I wasn't even in the state for and made up events so I looked crazy. They made it up. It can be shown because I was taken back three times over nothing. They gave the car I was driving away on the third time. The second time was when I showed up for trial, and Macy, not wanting to be leveraged, left for Mexico. So, they made up after my court-appointed advisor had spoken to me while I was in general population on June 9th, and I gave him a motion to dismiss for the state being unprepared, as my mom had told me Macy called her or texted her and said she was going to Mexico because she was getting leveraged by the government (I have these records too).

I have records of everything, but it's the doctored records. They have taken out everything that was bad, and they locked the body camera footage from me in DHS. That's the big one I know I need. It will show everything. The jail staff deliberately screwed me and intentionally kept me in jail an extra week, and they had the information against me. Lastly, the state's attorneys knowingly lied in court, and the judges disqualified my state claims even though it was six months from the dismissal. They allowed my claims to be removed. The Clackamas County Sheriff's Office, even though served three times, no-showed to court as if I didn't exist, and no one even acknowledged my court presence. The courts just let this happen.

My Evidence

I possess the following evidence:

- **Text Messages:** Between Macy and I, clearly showing the events of March 4-6, 2022, including her threats, and my requests for my keys and work files.

- **Police Reports:** Documenting my calls for assistance, Macy's threats, and the damage to my property.
- **Court Transcripts:** From June 10, 2022, and June 24, 2022, showing the false claims made about my COVID status, Macy's recantation, and the judge's response.
- **Jail Records:** Showing the dates of my incarceration, my medical requests, and the denial of access to the law library.
- **Kite Responses:** Confirming the deletion of my files by Guard Baker and the denial of access to the law library for civil claims.
- **Bail Records/Declaration :** Showing Macy and my cousin bailing me out.
- **Reports showing i was in the Hospital with Hyperthermia:** Showing my hyperthermia and the COVID-19 infection.
- **WLPD Response denying Body Camera Footage:** Showing the intertwining of my records with Macy's and her children's fathers' divorce records.
- **WLPD Policy Change:** The denial letters for body camera footage after I filed the lawsuit, showing they changed their policy.
- **Angala Miles (the dismissed incident that allowed WLPD to call me a repeat offender to show it never existed):** I have her as a witness, and she will explain the truth.

i have over over a 1500 pages in evidence showing these systemic issues, lies, reports, court documents, Collusion, denial of access to the courts, denial contact lenses to the blind, recurring events of misconduct none of which i need duplicates done, its very specific what i am looking for and its simple... if your goal is for whats right you will surely want to collaborate, if your sole

interest is to let the state 'get away with it' ill be your worst nightmare... because they won't get away with it with or without out assistance, but it will surely save the states intent of hiding evidence at this point i have had the state of oregon or its employees work as a corrupt organization against me; and i could go to trial tomorrow if called.) I have no problem sharing any of this information with you... however i am going to be direct with you if I do share it with you and your intent turns out to be finding a loophole to attempt to allow Clackamas County to weasel out of being accountable... they wont weasel out and I will simply add The State of Oregon to the Federal Claims.

My Requests

Given this information, I am requesting the following:

1. **Clarification of "Work With Me":** Does "work with me" mean you agree to waive the fees associated with my public records request and that you are open to reviewing the evidence I have presented?
2. **Body Camera Footage:** I request all body camera footage from March 4-6, 2022.
3. **Internal Court Emails:** I request any internal court emails between faculty prior to March 6, 2022, regarding my case.
4. **Internal Communications between Ruben Medina and Judge Steele on June 9th.**
5. **All records between Ruben Medina and Rebecca Portlock regarding my case.**
6. **All records from Rebecca Portlock regarding my case.**
7. **Confirmation of Body Camera Footage:** If the body camera footage does not exist, I need a letter stating so, as I asked for it to be preserved, my first attorney asked for it to be preserved, and my advisor asked for it to be preserved.

I appreciate that you are working with me. This is what I am hoping for, and this is why. The triple deal, sealing the deal where the police, their attorney, and the state will all look like a chump, is when that body camera footage shows up and their attorneys have lied and said it doesn't exist. I know it does; I had an argument with the officers right there on it. They were wrong on the elements of the claim, and they stated this. They then went back inside to look for more incidents. Later, when I talked to Macy, she said that too. That's the words Dana came and said to her: the elements of the statute that I argued with Catlin. He told Dana, and she went to make it up with Macy.

Conclusion

I believe that by working together, we can expose the truth and address the systemic issues that have caused me so much harm. I am confident that a thorough review of the evidence will reveal the serious nature of these allegations. I am ready to share all the evidence I have with you to facilitate this process.

I look forward to your prompt response.

Sincerely,

Thank you,,
/s/ Tyler A. Lofall

LD

L. Samuel Dupree<L.S.Dupree@ojd.state.or.us>

To:You

Thu 01/30/2025 3:59 PM

Good afternoon Mr. Lofall,

I have received your request. To be clear, I cannot help you with your case or with pursuing a legal remedy. My role is OJD's public records administrator and I have no authority to review evidence or pursue anything on your behalf. If you need assistance with you legal matter you will need to contact an attorney. The Oregon State Bar has a modest means program that may be able to help.

I have a few clarifying questions about your request, which I've included below. Many of your requests seek records that OJD does not have, including body camera footage and records involving individuals who are not employed by the courts. Please see the responses below for more detail.

My Requests

Given this information, I am requesting the following:

1. **Clarification of "Work With Me":** Does "work with me" mean you agree to waive the fees associated with my public records request and that you are open to reviewing the evidence I have presented?

I've included our department's fee waiver policy below. From the information you have provided, your request appears to be "a concern or interest of a private individual" which doesn't qualify for a fee waiver under the policy.

- Oregon's taxpayers bear the cost to provide records for free or reduced cost. We will consider waiving some or all of the cost to respond to a public records request only if you demonstrate that disclosure of the records is in the public's interest because it affects the community or society as a whole and helps us meet our responsibilities to them. A concern or interest of a private individual or entity does not merit a fee waiver.
- **We generally do not waive fees for requests made by for-profit business entities except when necessary to enlist the public's assistance in public safety or personal safety issues.**
- **Requests for fee waivers must be in writing.**

2. **Body Camera Footage:** I request all body camera footage from March 4-6, 2022.

The Oregon Judicial Department does not have access to body camera footage. The footage is either stored with the local law enforcement entity (such as the local sheriff's office) or the Oregon State Police.

3. **Internal Court Emails:** I request any internal court emails between faculty prior to March 6, 2022, regarding my case.

I have a few clarifying questions on this one. What we can do is perform an electronic records search of staff communications. I need to check with our technical team so they can provide a time estimate so I can provide a cost estimate. It will be cheaper if you can identify specifc people to search. Are

there specific people you are interested in? Either specific people or specific departments?

You've provided an end date for the search. What should the start date be? For instance, between January 1, 2022, and March 6, 2022.

Lastly, is there a specific case number you would like to include in the search terms? We can use your name as a search term, but it looks like there are several cases that you were a party to during that time period.

4. **Internal Communications between Ruben Medina and Judge Steele on June 9th.**

I am looking into this one.

5. **All records between Ruben Medina and Rebecca Portlock regarding my case.**

OJD does not have any records related to this request because these people are not court employees. It looks like Rebecca Portlock works for the Clackamas County District Attorney's office, so you could consider contacting that office about this request.

6. **All records from Rebecca Portlock regarding my case.**

Are you looking for records created by Rebecca Portlock? If so, OJD will not have those records because she is not a court employee. It appears that like Rebecca Portlock works for the Clackamas County District Attorney's office, so you could contact them about this request.

7. **Confirmation of Body Camera Footage:** If the body camera footage does not exist, I need a letter stating so, as I asked for it to be preserved, my first attorney asked for it to be preserved, and my advisor asked for it to be preserved.

I am unable to confirm whether body camera footage exists because the Oregon Judicial Department does not have access to body camera footage. The footage is either stored with the local law enforcement entity (such as the local sheriff's office) or the Oregon State Police.

All the best,

Sam

Hi again,

One more clarifying question for the emails between Ruben Medina and Judge Steele. What is the full date for your request? Your request is missing the year.

I'm assuming it's 2022 since your other requests are focused on that year, but I wanted to be sure.

All the best,

Sam

Subject: Re: Clarification of "Work With Me" and Proposal for Collaborative Resolution - Transparency Demanded: The Inevitable Unveiling of Systemic OJD Failures

Dear Mr. Dupree,

This email is my definitive response to your communication of January 30th. While I will address your requests for clarification below, it's become increasingly clear these are mere diversions, attempts to obscure the profoundly troubling issues at hand.

Direct Responses to Your Clarifying Questions:

For absolute clarity, and despite the seeming pointlessness of further procedural exercises, I will address your "clarifications":

- **Clarification of "Work With Me":** "Work with me" is simple. As Senior Assistant General Counsel and OJD's public records administrator, your duty is to **facilitate, not obstruct, lawful access to public records.** Given the demonstrable public interest and the financial devastation inflicted upon me by the entities these records concern, it means you will **immediately waive all fees.** To suggest "work with me" implies I seek your legal advice or advocacy is, frankly, insulting to our collective intelligence. It means you will, with professional integrity – a concept perhaps novel in Clackamas County – **enable, not impede, transparency.**
- **Internal Court Emails - Specification:** Regarding your need for "specificity" for the internal court email search:

- **Specific Individuals/Departments:** To ensure a *demonstrably* thorough search, I specify these individuals and departments:
    - Judge Steele and all her judicial staff (all OJD email addresses).
    - Ruben Medina (Court-Appointed Advisor) - all OJD email addresses.
    - The *entirety* of the Oregon Judicial Department faculty and departments involved in:
        - Judicial Administration (all sections).
        - Judicial Ethics (all sections).
        - Judicial Oversight (all sections).
        - Executive and Technical Services Division (ETSD) - especially those managing electronic records.
        - All OJD departments communicating with Clackamas County Courts, the DA's Office, and West Linn PD.
- **Search Timeframe - Start Date:** December 1, **2020** (Year clarified, as if it wasn't obvious).
- **Search Timeframe - End Date:** July 13, 2022.
- **Case Name Inclusion:** Include case name **"Lofall"** as a primary search term. To simplify this for your office, and to assure you I am the *only* "Lofall" relevant to this matter, I can provide my entire case file as a compressed digital archive. I trust this level of specificity is sufficient, even for the most deliberately obtuse search parameters. Also include keywords: "Lofall," "Macy Galla," and all derivatives.(i'm perfectly okay with "lofall" block chopped and zip it and be done i can sort it, i mean its literally 100% directly catastrophic to my life.. weird how iu look online

and see foia includes all Government Agencies and you tell me court docs only... wow...its almost like the swindle that never ends.... anyways.... **<u>if thats not the case then.... so why not save time and give me all of the docs, unless its being hidden because of corruption ?</u>**

- **Internal Communications - Medina/Steele (June 9th, 2022):**
  - **Date of Inquiry:** June 9, **2022** (Year clarified again, for emphasis).
- **"All records from Rebecca Portlock regarding my case":** I seek **all OJD records that *document or reference* Rebecca Portlock and my cases**, not just records *created by* her. This includes:
  - All internal OJD emails, memos, notes referencing Rebecca Portlock and my cases (Tyler Lofall, etc.).
  - All OJD records of meetings or discussions referencing Rebecca Portlock and my cases.

Fee Waiver - The Predictable Illusion of Policy:

Your invocation of the OJD's fee waiver policy to deny my request is, predictably, transparent misdirection. To claim that exposing systemic corruption and constitutional rights violations is a "private concern" is an assertion so detached from reality it approaches parody.

Let me reiterate the irrefutable public interest, though I suspect genuine engagement with this concept is beyond the OJD's current capacity:

- **Systemic Corruption Exposed:** Unmasking collusion within Clackamas County and the OJD – corruption that demonstrably wrecked my AOB case *and* fabricated criminal proceedings.

- **Abuse of Power Laid Bare:** Revealing the weaponization of law enforcement and judicial power to fabricate charges, suppress evidence (evidence you are actively concealing), and deny due process.
- **Constitutional Rights - A Clackamas County Afterthought?:** Illuminating the systemic disregard for constitutional rights, rights seemingly optional in Clackamas County, impacting my civil liberties and the "fairness" of *both* legal proceedings.
- **Public Trust - A Distant Memory?:** Initiating the Herculean task of restoring public trust in the OJD, an institution demonstrably compromised by the actions these records may reveal.

To suggest Oregon taxpayers are burdened by transparency is absurd. Taxpayers are burdened by corruption. A fee waiver is not just justified; it's ethically required.

Dupree-Wetzel Affiliation - An Observation:

It's a matter of public record that you were Judicial Clerk for the Honorable Michael Wetzel at Clackamas County Circuit Court for over three years. Judge Wetzel presided over my AOB case and demonstrably failed to uphold justice, enabling the malicious criminal proceedings As he dismissed my AOB and denied the resurrection after the false arrest was revealed. .

This is merely an observation. Reasonable people can draw their own conclusions about impartiality.

Body Camera Footage - The Unwavering Demand:

[Keep the same forceful and unwavering reiteration regarding the Body Camera Footage.]

Conclusion: The Inevitable Unfolding:

Mr. Dupree, your response reads as less a legitimate engagement with a FOIA request and more a calculated delay tactic to shield the OJD and Clackamas County.

Continue to erect barriers, invoke loopholes, and feign ignorance. Underestimate my resolve and the force of digital transparency.

But be clear: I will not be deterred. I will not be silenced. The truth *will* be exposed. Systemic failures and potential corruption *will* be revealed.

I demand a prompt, substantive, *and demonstrably transparent* response outlining concrete steps to comply with my requests, waive fees, and address the demonstrably conflicted handling of this matter. The public, the legal community, and I are watching. Let your actions reflect transparency and justice, not continued obstruction.

Sincerely,

Tyler Lofall

      <docTitle>Definitive Response Regarding FOIA Request and Fee Waiver - Final Version</docTitle>
      <p>A Formal Communication to L. Samuel Dupree, Senior Assistant General Counsel, Oregon Judicial Department</p>
    </preface>
    <body>
      <greeting>Dear Mr. Dupree,</greeting>
      <p>This email is my definitive response to your communication of January 30th. While I will address your requests for clarification below, it's become increasingly clear these are mere diversions, attempts to obscure the profoundly troubling issues at hand.</p>
      <section name="Direct Responses to Your Clarifying Questions">
        <heading>Direct Responses to Your Clarifying Questions:</heading>
        <p>For absolute clarity, and despite the seeming pointlessness of further procedural exercises, I will address each of your requests for "clarification":</p>
        <subsection name="Clarification of Work With Me">
          <heading>Clarification of "Work With Me":</heading>
          <p>"Work with me" is simple. As Senior Assistant General Counsel and OJD’s public records administrator, your duty is to <b>facilitate, not
```

obstruct, lawful access to public records. Given the demonstrable public interest and the financial devastation inflicted upon me by the entities these records concern, it means you will immediately waive all fees. To suggest "work with me" implies I seek your legal advice or advocacy is, frankly, insulting to our collective intelligence. It means you will, with professional integrity – a concept perhaps novel in Clackamas County – enable, not impede, transparency.

</subsection>

<subsection name="Internal Court Emails - Specification">

<heading>Internal Court Emails - Specification:</heading>

In response to your need for "specificity" for the internal court email search:

<list type="bullet">

<item>

Specific Individuals/Departments: To ensure a demonstrably thorough search, I specify these individuals and departments:

<list type="bullet">

<item>Judge Steele and all her judicial staff (all OJD email addresses).</item>

<item>Ruben Medina (Court-Appointed Advisor) - all OJD email addresses.</item>

<item>The entirety of the Oregon Judicial Department faculty and departments involved in:</item>

<list type="bullet">

<item>Judicial Administration (all sections).</item>

<item>Judicial Ethics (all sections).</item>

<item>Judicial Oversight (all sections).</item>

<item>Executive and Technical Services Division (ETSD) - especially those managing electronic records.</item>

<item>All OJD departments communicating with Clackamas County Courts, the DA's Office, and West Linn PD.</item>

</list>
</list>
</item>
<item>Search Timeframe - Start Date: The email search should commence from December 1, 2020 (Year clarified, as if it wasn't obvious).</item>
<item>Search Timeframe - End Date: The email search should conclude on July 13, 2022.</item>
<item>Case Name Inclusion: Include case name "Lofall" as a primary search term. To simplify this for your office, and to assure you I am the only "Lofall" relevant to this matter, I can provide my entire case file as a compressed digital archive. I trust this level of specificity is sufficient, even for the most deliberately obtuse search parameters. Also include keywords: "Lofall," " "Macy Galla," and all derivatives.</item>
</list>
</subsection>
<subsection name="Internal Communications - Medina/Steele (June 9th, 2022)">
<heading>Internal Communications - Medina/Steele (June 9th, 2022):</heading>
Date of Inquiry: June 9, 2022 (Year clarified again, for emphasis).
</subsection>
<subsection name="All records from Rebecca Portlock regarding my case">
<heading>"All records from Rebecca Portlock regarding my case":</heading>
My request pertains to all OJD records that document or reference Rebecca Portlock and my cases, not just records created by her. This includes:
<list type="bullet">

<item>All internal OJD emails, memos, notes referencing Rebecca Portlock and my cases (Tyler Lofall, 22CV39627, etc.).</item>

<item>All OJD records of meetings or discussions referencing Rebecca Portlock and my cases.</item>

</list>

</subsection>

</section>

<section name="Fee Waiver - The Predictable Illusion of Policy">

<heading>Fee Waiver - The Predictable Illusion of Policy:</heading>

Your invocation of the OJD’s fee waiver policy to deny my request is, predictably, transparent misdirection. To claim that exposing systemic corruption and constitutional rights violations is a "private concern" is an assertion so detached from reality it approaches parody.

Let me reiterate the irrefutable public interest, though I suspect genuine engagement with this concept is beyond the OJD's current capacity:

<list type="bullet">

<item>Systemic Corruption Exposed: Unmasking collusion within Clackamas County and the OJD – corruption that demonstrably wrecked my AOB case and fabricated criminal proceedings.</item>

<item>Abuse of Power Laid Bare: Revealing the weaponization of law enforcement and judicial power to fabricate charges, suppress evidence (evidence you are actively concealing), and deny due process.</item>

<item>Constitutional Rights - A Clackamas County Afterthought?: Illuminating the systemic disregard for constitutional rights, rights seemingly optional in Clackamas County, impacting my civil liberties and the "fairness" of both legal proceedings.</item>

<item>Public Trust - A Distant Memory?: Initiating the Herculean task of restoring public trust in the OJD, an institution demonstrably compromised by the actions these records may reveal.</item>

</list>

To suggest Oregon taxpayers are burdened by transparency is absurd. Taxpayers are burdened by corruption. A fee waiver is not just justified; it is ethically required.
</section>
<section name="Dupree-Wetzel Affiliation - An Observation of Public Record">
<heading>Dupree-Wetzel Affiliation - An Observation of Public Record:</heading>
It is duly noted, for the sake of complete transparency, that your professional history, clearly establishes a significant, formative, and extended period of employment as a Judicial Clerk for the Honorable Michael Wetzel at Clackamas County Circuit Court. Judge Wetzel, as you are undoubtedly aware, presided over my Assignment of Benefits (AOB) case, and is implicated in the broader allegations of judicial misconduct and systemic failure that are central to my public records request.
This is merely an observation. Reasonable people can draw their own conclusions about impartiality. It is, perhaps, ironic that you cite policy and procedure to deny my fee waiver, while simultaneously embodying a potential conflict of interest that undermines the very integrity those policies are meant to uphold.
</section>
<section name="Body Camera Footage - The Unvanquished Demand">
<heading>Body Camera Footage - The Unvanquished Demand:</heading>
[Maintain the same forceful and unwavering reiteration regarding the Body Camera Footage, as its symbolic importance remains paramount and has thus far been denied and hidden behind DHS because it would end the argument and you would undoubtedly seethe only evidence needed to end not only the civil case, but Officers, and their attorneys Careers; however instead systemic coverup is more important....]
</section>
</body>

<conclusions>
Conclusion: The Unfolding Narrative of Systemic OJD Failure:
Mr. Dupree, your response, when viewed through the lens of objective scrutiny, appears less as a legitimate engagement with a public records request and more as a calculated maneuver to delay, deflect, and ultimately deny access to information that could prove deeply incriminating to the Oregon Judicial Department and Clackamas County.
You may continue to erect bureaucratic barriers, invoke policy loopholes, and feign an inability to locate or disclose these records. You may underestimate my resolve, and you may underestimate the inevitable force of transparency in the digital age.
However, be unequivocally clear on this point: I will not be deterred. I will not be silenced. I will pursue the truth, and I will expose the systemic failures and potential corruption within the Oregon Judicial Department and Clackamas County through every legal and public avenue available to me.
I demand a prompt, substantive, and demonstrably transparent response that outlines the immediate and concrete steps you will take to fully comply with my public records requests, waive all associated fees, and address the grave and now demonstrably conflicted handling of this matter. The public, the legal community, and I are watching. Let your actions reflect a commitment to transparency and justice, rather than a continued entrenchment in obstruction and obfuscation.
<closingRemarks>Sincerely,
 Tyler Lofall</closingRemarks>

Flagged

Good afternoon Mr. Lofall,

At your request I am working to find someone else to assist you. In the meantime I have sent your request in for a time estimate.

Please keep in mind that you sent this request to the Oregon Judicial Department (OJD). The Clackamas County District Attorney's office, Clackamas County, and law enforcement, such as the West Linn PD, are separate entities. While OJD can search for communications sent to or by OJD employees, OJD does not have access to the internal records of those entities. If you would like records from those entities, you will have to reach out to them to request their records. Additionally, Mr. Medina does not appear to work for a public entity so you may have to reach out to his office directly.

All the best,

Sam

L. Sam Dupree (he/him)

Senior Assistant General Counsel

Oregon Judicial Department

Office of General Counsel
